

- Remote location anesthesia procedures like endoscopy, brachytherapy, ERCP,
- MRI, CT Radiation oncology and EEG.
- ICU procedures related to Anesthesia.
- Robotic Surgeries
- Daycare Surgeries
- General Surgeries
- Laparoscopic Surgeries
- Urology Surgeries
- Plastic and Reconstructive Surgeries

EXPERIENCE IN HANDLING MACHINES AND EQUIPMENTS

- Anesthesia Machines
- Anesthesia Monitors
- Portable Ventilators
- ICU Ventilator
- Vaporizers
- Airway Equipment's:
 - I gel
 - LMA
 - Bougie.
 - Stylet
 - Retrograde Intubation
 - Cricothyroidotomy set
- Fiber Optic Intubation.
- Resuscitation equipment's: - AMBU Bag, Defibrillator.
- Syringe and Infusion Pumps: JMS SP 500, Terumo terufusion TE 331
- Transplant surgery
- Blood and Fluid warmers: - Smith Medical H1200 Fast Flow Fluid Warmer,
- Body Warmers

KEY RESPONSIBILITIES HANDLED

- Assist anesthesiologists in the administration of local, regional and General anesthesia
- At Intensive Care unit, the post anesthesia care Unit, OR, difficult airway management ER and Remote locations
- Checks anesthesia machine every morning to ensure that the gas Scavenging system is attached and that the suction apparatus functions well
- Arranges anaesthetizing locations to indicate process and to set-up monitoring devices
- Uses airway techniques in emergency methods and local anesthesia techniques
- Operates, calibrates and performs routine maintenance of all anesthesiology equipment in the OR; also maintains inventory of supplies and equipment and records status
